

## 关于京兆 | About Cmega

上海京兆电气有限公司致力于为电力电子服务并提供有效和可靠的产品，能源的有效利用、能源的精确控制都是京兆公司关注的方向和研发的动力，同时京兆的产品也会在降低能源对环境的不良影响方面彰显优势，公司极力支持和协助可再生能源的推广和开发利用。

公司建立实施并通过了ISO9001质量体系认证，产品的开发、设计、工艺制造及品质控制等环节全程受控，确保了产品质量的可靠稳定。

京兆电气提供变频器等配套的电抗器，电阻器，滤波器等配件。

- 在风力发电等再生能源方面提供电抗器，电阻器等产品。
- 在电力无功补偿方面提供电抗器。
- 在滤波装置上面提供电抗器，滤波器等。
- 为能源有效利用提供能量回馈单元。
- 可根据客户个性化要求定制非标准产品，并承接OEM订单。

我们将在客户的支持和不断创新下辉煌地走下去……

Shanghai cmega electric Limited company devotes to provide the effective and reliable product for the electric-electron, to use the energy in effective and control the energy in accurate that is Cmega focus on direction and the drive for research and development .while the main product with the outstanding advantage in reducing the environment negative effect that caused by energy, the company supports and assists the promotion and the development vigorously of the renewable energy source.

The company pass the ISO9001 quality system certification. All process including product development, design, manufacturing and quality control take the effective measures, ensuring reliable and stable quality.

CMEGA Electric provides the reactor, resistor, filter for inverter system.

- Reactor, Resistor for windmill energy and other renewable energy generation application.
- Detuning Reactor for electric power compensation system.
- Reactor, Filter for active filter and other filter system.
- Energy back coupling unit for the energy effective use.
- Can make the customized product according to the customer's special request, and provide the OEM service .
